

Svetlana Didenko

HTML Coder

About me

Web Developer specializing in creating responsive and modern websites. My expertise includes in-depth knowledge of HTML5, CSS3, and BEM methodology, along with proficiency in design tools such as Figma and PSD. I value quality, pay attention to detail, and am committed to continuous professional growth.

I am seeking opportunities to apply my web development skills and aspire to work in a team where I can make a significant contribution and continue to evolve as a professional.
